#### **Independent Auditors' Report**

To The Honorable Mayor and Members of the Town Council Town of Easton, Maryland

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, budgetary comparison of the general fund and the aggregate remaining fund information of the Town of Easton, Maryland, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, budgetary comparison of the general fund and the aggregate remaining fund information of the Town of Easton, Maryland as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis and schedules of funding progress for the defined benefit plan and other postemployment benefits on pages 3 - 16 and 63 – 64 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Easton, Maryland's basic financial statements. The combining and individual nonmajor fund financial statements and other supplementary information as listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and other supplementary information as listed in the accompanying table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

Clifton Larson Allen LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2013, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Baltimore, Maryland November 26, 2013

The Management's Discussion and Analysis (MD&A) offers readers of the Town of Easton, Maryland's (Town) financial statements a narrative overview and analysis of the Town's financial activities for the fiscal year ended June 30, 2013. Readers are encouraged to consider the information presented here in conjunction with the financial statements, summary of significant accounting policies (SSAP) and notes to the financial statements (which immediately follow this discussion).

#### FINANCIAL AND EVENTS HIGHLIGHTS

- The Town began a recycling program in the current fiscal year with the intent to decrease the amount of trash and waste going to the County Landfill. Recycling containers were provided to the Town residents to allow the residents to have curbside pickup of their recyclables.
- The Town finalized the changeover in the trash collections services with the automated tipper cans that allow for more efficient trash collection for the residents.
- The comfort station at the RTC Park has been completed at this Town owned Park. The athletic stations and playing fields are complete.
- Total assets of the Town at year-end were \$176.6 million and exceeded its liabilities at June 30, 2013 by \$139.3 million (i.e. total net position).
- As of June 30, 2013, the Town's governmental funds reported an ending fund balance of \$16.1 million which is a decrease of \$1.7 million from June 30, 2012. The components of this change are discussed later.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the Town of Easton's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and budgetary comparison, and 3) notes to the financial statements.

#### **Government-wide Financial Statements**

There are two government-wide financial statements, which are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business. Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, public works, parks and recreation, cultural, economic development and debt service. The major business-type activity is the Utilities Fund although the Town has also been involved in another enterprise fund categories which are intended to provide economic development and urban redevelopment while recouping the costs involved in accomplishing those goals.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

#### **Government-wide Financial Statements** (Continued)

The Statement of Net Position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. This statement serves a purpose similar to that of the balance sheet of a private-sector business. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating. However, this is just one indicator of the financial health of the Town. Other indicators include the condition of the Town's infrastructure systems (roads, drainage systems, etc.), changes in property tax base, and general economic conditions within the Town.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on taxes for funding. All changes in net position are reported using the accrual basis of accounting, similar to the method used by most private-sector companies. The accrual basis of accounting requires that revenues be reported when they are earned and expenses are reported when the goods and services are received, regardless of the timing of the cash flow. Items such as uncollected taxes, unpaid vendor invoices for items received as of June 30, 2013, and earned but unused vacation leave will be included in the Statement of Activities as revenues and expense, even though the cash associated with these items will not be received or distributed until after June 30, 2013.

The Town has no separately identified component units included in the government-wide financial statements.

#### **Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Easton, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Easton can be divided into three categories: governmental, proprietary and fiduciary funds. Governmental Funds are used to account for most, if not all, of a government's tax supported activities. Proprietary Funds are used to account for a government's business-type activities, where all or part of the costs of activities are supported by fees and charges that are paid directly by those who benefit from the activities. Fiduciary Funds are used to account for resources held for the benefit of entities outside of the government.

Governmental Funds. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances present separate columns of financial data for the General Fund, Capital Projects Fund, Infrastructure Development Fund, and other funds not considered major by the Town. GASB defines a major fund as a fund whose assets, liabilities, revenues or expenditures

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

#### Fund Financial Statements (Continued)

comprise: 1) at least 10% of the total dollar amount of the same category within either all governmental or enterprise funds, as appropriate, and 2) at least 5% of the total dollar amount of all governmental or enterprise funds combined for the same category. The General Fund is always considered a major fund. The governmental funds financial statements can be found immediately following the government-wide financial statements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements use of full accrual accounting, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and on balances of spendable resources available at the end of the fiscal year. Such information is useful in evaluating a government's near-term financing requirements in comparison to near-term resources available.

Because the focus of governmental fund financial statements is narrower than that of government-wide financial statements, it is useful to compare information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. In order to facilitate this comparison, the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances provide reconciliation to the governmental activities column in the government-wide statements.

The Town maintains budgetary controls over its operating funds. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Budgets for governmental funds are established in accordance with the Town Charter and are adopted on a fund level. Personal services are budgeted by full-time positions. Capital outlays are approved on an item-by-item basis or project basis. A budgetary comparison statement is provided for the General Fund to demonstrate compliance with the budget. Non-major fund information follows the notes to the financial statements. Budgetary variances for the General Fund are discussed later in this section.

*Proprietary Funds.* Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its utility functions and various rental properties.

Proprietary fund statements follow the governmental fund statements in this report. They provide the same type of information as the government-wide financial statements, only in more detail, since both apply the accrual basis of accounting. The proprietary fund financial statements provide information for the Utility Fund, the Land Enterprise Fund, the Airport Industrial Land Fund and the East End Redevelopment Fund. There are no reconciling differences from the Proprietary Funds Statement of Net Position to the business-type activity column on the Government-Wide Statement of Net Position.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

#### Fund Financial Statements (Continued)

Fiduciary Funds. Fiduciary funds are used to report resources held for the benefit of outside parties of the Town. The Town reports and accounts for its defined benefit plan and its other post employment benefit plan in fiduciary funds. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

#### **Notes to the Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and can be found immediately following the basic financial statements in this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Town's net position totaled \$139.3 million at June 30, 2013 which is an increase of approximately \$7.5 million over the June 30, 2012 net position. The following table reflects the Government-Wide Statement of Net Position for Governmental and Business-Type Activities:

	Governmen	tal Activities	Business-Ty	pe Activities
	2013	2012	2013	2012
Current and other assets Capital assets and other assets Total assets	\$ 17,275,879	\$ 18,586,819	\$ 33,344,422	\$ 33,440,990
	37,834,800	34,069,687	88,120,568	84,467,397
	55,110,679	52,656,506	121,464,990	117,908,387
Current liabilities	2,371,341	1,579,837	6,638,374	6,259,737
Long-term debt	9,958,688	9,264,358	18,294,467	21,620,630
Total liabilities	12,330,029	10,844,195	24,932,841	27,880,367
Net investment in capital assets	29,061,944	24,620,301	68,238,242	61,499,469
Restricted	6,594,705	6,620,780	-	-
Unrestricted	7,124,001	10,571,230	28,293,907	28,528,551
Total net position	\$ 42,780,650	\$ 41,812,311	\$ 96,532,149	\$ 90,028,020

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)**

#### **Statement of Net Position** (Continued)

The Town's total assets were approximately \$176.6 million (compared to \$170.6 million in the prior year) as of June 30, 2013. Of this amount, \$126 million (compared to \$118.5 million in the prior year) is accounted for by capital assets, which includes infrastructure.

Of the remaining assets, approximately \$29.8 million is accounted for in cash and cash equivalents and investments (compared to \$31.6 million in the prior year), approximately \$7.1 million in accounts and notes receivable (compared to \$7.4 million in the prior year), inventory of approximately \$6 million (compared to \$5.8 million in the prior year), with the remainder spread among various other accounts.

Outstanding liabilities totaled approximately \$37.3 million with bonds and other long-term obligations comprising approximately \$12.9 million, loans and notes payable comprising approximately \$18.3 million, and approximately \$6.1 million in accounts payable and accrued expenses at June 30, 2013. This compares with the June 30, 2012 amounts where the Town had outstanding liabilities of approximately \$38.7 million of which approximately \$14.2 million was bonds payable, approximately \$19.1 million was loans and notes payable, and approximately \$5.4 million was in accounts payable and accrued expenses. Of the long-term obligations, approximately \$2.9 million is due within one year, with the remainder due at various dates before 2028. Refer to the notes to the financial statements for a more in-depth discussion of long-term debt.

The largest portion of the Town's net position reflects its investment in capital assets, less any outstanding related debt used to acquire those assets. The Town's capital assets are used to provide services to citizens and customers. Consequently, investments in capital assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

At June 30, 2013, the Town had positive balances in all categories of net assets, for the government as a whole, and for governmental activities. Business-type activities also experienced positive balances in both capital and unrestricted assets; there were no restricted assets.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)**

#### **Statement of Activities / Changes in Net Position**

The following schedules compare the revenues and expenses for the current and preceding fiscal years.

### Statement of Activities and Changes in Net Position Fiscal Year Ended June 30, 2013

	Governmental Business-Typ		
	Activities	Activities	Total

Net position, end of year	\$	41,812,311	\$	90,028,020	\$	131,840,331

Total revenues for the Town of Easton were approximately \$72 million for the year ended June 30, 2013 compared to approximately \$68 million for the year ending June 30, 2012. Governmental activities provided approximately \$18.4 million, and business-type activities provided \$53.1 million, primarily through charges for services.

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town of Easton uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Following are the financial analyses of the Town's governmental and proprietary funds.

#### **Governmental Funds Revenue and Expenditure Analysis**

The general governmental functions are contained in the General Fund. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the Town. As of June 30, 2013, unassigned fund balance of the General Fund was approximately \$5.9 million.

#### **Revenues Classified by Source**

			Percent to		
		2013	Total	2012	Total
<b>Governmental Funds</b>					
Revenues					
General property taxes	\$	12,455,554	67.08%	\$ 12,181,527	67.61%
Other local taxes		1,416,370	7.63%	1,366,348	7.58%
Permits and licenses		470,367	2.53%	431,735	2.40%

Intergovernmental		1,032,213	<u>5.56</u> %	 1,024,769	<u>5.69</u> %
Total revenues	\$	18,568,324	100.00%	\$ 18,018,025	100.00%

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS (CONTINUED)

#### **Governmental Funds Revenue and Expense Analysis** (Continued)

The following provides an explanation of revenues by source that changed greater than 1.5% over the prior year:

- **General Property Taxes** This consists primarily of real property tax revenues, which were approximately \$11.6 million, an increase of 2% or approximately \$236 thousand from last year reflecting an increase in tax base properties. The real estate tax rate was maintained at the FY2012 rate of \$.52 per \$100 of assessed value.
- Charges for Services The increase in charges for services reflects the implementation of a Town
  wide recycling program. Current year charges for services include approximately \$228 thousand in
  Recycling Fees.

The following table represents expenditures by function:

#### **Expenditures by Function**

	2013	Percent to Total	2012	Percent to Total
<b>Governmental Funds</b>		Total	LUIL	10141
Expenditures				
Current operations:				
General government				
administration	\$ 1,896,685	9.56%	\$ 2,003,703	10.39%
Public safety	8,571,002	43.17%	8,866,685	46.01%
Public works	6,397,266	32.23%	5,091,950	26.41%
Recreation and cultural	751,020	3.78%	921,742	4.78%
Economic development	251,687	1.27%	236,904	1.23%
Nondepartmental	778,207	3.92%	771,468	4.00%
Debt service:				
Principal	791,307	3.99%	937,476	4.86%
Interest	 412,561	<u>2.08%</u>	 448,181	<u>2.32%</u>
Total expenditures	\$ 19,849,735	<u>100.00%</u>	\$ 19,278,109	<u>100.00%</u>

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS (CONTINUED)

#### **Governmental Funds Revenue and Expense Analysis (Continued)**

The following provides an explanation of the expenditures by function that changed greater than 1.5% over the prior year:

• **Public Works** – The increase in Public Works was due in a large part to capital expenditures made in FY2013. Several larger road improvement projects were undertaken as well as completion of installation of pedestrian crosswalk lights at several main intersections.

#### **Enterprise Funds Revenue and Expense Analysis**

Proprietary Funds	2013	2012
Operating Revenues		
Charges for services	\$ 45,848,733	\$ 44,907,589
Other operating revenues	6,940,546	3,775,164
Total revenues	\$ 52,789,279	\$ 48,682,753
Operating Expenses		
Cost of service	\$ 39,535,077	\$ 37,685,337
Depreciation	6,403,189	6,295,642

Miscellaneous	184,954	160,155
Net other revenues and (expenses)	<u>\$ (715,451)</u>	\$ 148,657

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS (CONTINUED)

**Operating Revenues:** Revenues in FY13 increased \$4.1 million, or 8.4%, from FY12. This was largely due to \$3.2 million, or 87.1% higher wholesale generation revenues in the Electric Department. The Electric Department's other revenues increased \$109 thousand primarily as a result of higher unit sales, partially offset by greater net benefits of generation passed back to customers. The Water & Wastewater Department's revenues decreased \$43 thousand, or 1.0%, reflecting a decrease in usage per customer. Cable & Communication's revenues increased \$898 thousand, or 9.0%, over FY12, primarily as a result of a continued growth of higher priced cable TV and modem services, VOIP customers, cable TV terminal rentals, and IT consulting services.

Operating Expenses: The Utility Fund's operating expenses increased \$2.0 million, or 4.5%, versus FY12. The primary driver of the change was \$2.4 million, or 64.0%, higher wholesale generation expenses in the Electric Department, which was partially offset by \$1.2 million, or 211.3%, greater capacity credits related to the Commission's generation assets. The Gas Department's operating expenses were \$57 thousand, or 1.1%, higher during FY13 primarily due to lower charges to capital construction. The Water & Wastewater Department's operating expenses were \$142 thousand, or 3.0%, lower than the prior year due mainly to the receipt of an operations grant and fewer charges for distribution maintenance. Cable & Communications Department experienced a \$737 thousand, or 9.7%, increase in operating expenses as a result of increasing programming costs and lower charges to capital construction, partially offset by a decrease in internet connection fees and lower depreciation expense.

**Capital Charges:** Capital charges are fees paid by developers for new connections to the Water & Wastewater Departments. These charges are recorded as other income. Total capital charges collected in FY13 were \$136 thousand, compared to \$1.9 million in FY12. The decrease was due to a return to more normal development activity after a large residential development's connection to the Utility Fund's system during the prior fiscal year.

#### **ANALYSIS OF BUDGET AND ACTUAL RESULTS**

					1	/ariance
	Original					Positive
	Budget	F	inal Budget	Actual	(1	Negative)
Governmental Funds – General Fund

Nondepartmental	939,452		939,452	655,993		283,459
Debt service:						
Principal	52,771		52,771	56,307		(3,536)
Interest	1,569		1,569	17,237		(15,668)
Other financing (sources) uses:						
Transfers	 3,172,037		3,172,037	 3,275,604		103,567
Total expenditures and other uses	\$ 17,391,890	\$	17,391,890	\$ 17,406,235	\$	(14,345)

Regarding actual results of the governmental funds to the adopted budgets, variations greater than 1.5% were as follows in summary form:

- Gross actual revenues were slightly above gross budgeted revenues by approximately \$562 thousand dollars or approximately 3.2% of the budgeted revenue of approximately \$17.4 million. This is primarily the result of increases in real property tax revenues.
- Gross budgeted expenditures and other financing uses were greater than the gross actual expenditures and other financing uses by approximately \$14 thousand or .08% of budgeted expenditures and other financing uses. The most significant variance related to public safety.
- Public safety experienced greater than budgeted operating expense (including salaries, benefits, supplies and road construction materials) due to increased benefit costs and capital expenditures for the Fire Department.

#### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

#### **Capital Assets**

The Town's total investment in capital assets, including construction in progress, for its governmental and business-type activities as of June 30, 2013, amounted to \$125.8 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery and equipment, recreation and park facilities, utilities properties and facilities as well as other typical capital items.

The following table schedules present capital assets by category (net of accumulated depreciation) for fiscal years ending June 30, 2013 and 2012, respectively:

### Capital Assets (Net of Depreciation)

		Governmen	tal A	Activities	Business-Type Activities				To	otal		
	2013		2012		2013		2012		2013		2012	
Land Buildings and	\$	7,150,141	\$	6,978,830	\$ 1,130,905	\$	1,280,964	\$	8,281,046	\$	8,259,794	
improvements		26,968,345		23,607,259	18,420,347		17,998,655		45,388,692		41,605,914	
Plants, mains and other equipment Construction in		3,646,824		3,414,108	65,324,153		59,385,772		68,970,977		62,799,880	
progress					 3,156,454		5,646,145		3,156,454		5,646,145	
Total	\$	<u>37,765,310</u>	\$	<u>34,000,197</u>	\$ <u>88,031,859</u>	\$ :	84,311,536	\$	125,797,169	\$	<u>118,311,733</u>	

During the year ended June 30, 2013, the Town's capital assets grew by approximately \$7.5 million. This is largely due the completion of the Wastewater Treatment Facility in the utility fund with a final cost of approximately \$39.1 million. Additionally, the Fire Department purchased a new Ladder truck and several large road improvement and widening projects were completed.

#### **Long-Term Debt**

The Town issued no new bonds during the year ended 2013, however, did originate a loan with the State of Maryland totaling approximately \$99 thousand. The Town's net OPEB obligation decreased by approximately \$125 thousand. Regularly scheduled principal payments were made during 2013 totaling approximately \$2.3 million. Refer to schedule below for balances.

#### SUBSEQUENT ITEMS FOR FUTURE FINANCIAL STATEMENTS

The Town of Easton has opted to create a separate legal entity known as the Easton Economic Development Commission and to initially fund that entity for the fiscal year beginning July 1, 2013. This activity is intended to be a new approach to Economic Development within the Town and will replace the former staff positions which performed these duties previously.

To improve treatment quality and to meet increasing system demand, construction of a new wastewater treatment facility began in FY05. The facility was placed in service in FY07. Final work on the major components of the project was completed in FY08. During FY13, construction of the facility was completed at a final cost of \$39.1 million. This facility was funded through a combination of grants and state loans.

To mitigate the effect of continually rising expenses, the Utility Fund, in departmental teams, was tasked with finding ways to implement cost reductions, productivity or process improvements of at least \$150 thousand during FY13 and \$150 thousand in FY12. The teams implemented cost reductions, productivity or process improvements of over \$300 thousand and \$290 thousand in FY13 and FY12, respectively.

The Utility Fund's mission is to enhance the quality of life in our community by providing reliable, competitively-priced utility and communications services through skilled, safety-oriented and customer-focused employees. Management regularly reviews both this mission and an accompanying set of values — Cooperation, Innovation, Communication, Equal Opportunity, Integrity, Responsibility, and Pride in our work — during strategic planning sessions. We believe that our plans for the future continue to be consistent with these values, which help us continue to achieve our mission.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Town of Easton's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town Manager, Town of Easton, 14 S. Harrison Street, Easton, MD 21601.

# TOWN OF EASTON, MARYLAND RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2013

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (1,649,978)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures.  However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.  This is the amount by which capital outlay \$4,815,636 exceeds depreciation expense \$1,891,860 in the period.	2,923,776
Transfer of liabilites in excess of capital assets from a business type activity.	(830,788)
In the Statement of Activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for compensated absences are measured by the amount of financial resources used (essentially, the amounts actually paid or expected to be paid). This year, vacation leave earned exceeded the amounts used by \$23,395.	(23,395)
OPEB costs reported in the Statement of Activities do not require the use of current financial resources and, are not reported as expenditures in governmental funds.	(95,794)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.  This amount is the net effect of these differences in the treatment of long-term debt and related items.	791,308
Under the modified accrual basis of accounting, revenues are not recognized unless they are deemed "available" to finance current expenditures. Accrual-basis recognition is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year. This adjustment records a net decrease in "unavailable" revenues at the end of the year over the amount at the beginning of the year.	(146,790)

#### TOWN OF EASTON, MARYLAND NOTES TO FINANCIAL STATEMENTS June 30, 2013

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the Town of Easton, Maryland (Town) conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to local governments. A summary of significant accounting policies followed by the Town are presented below.

#### **Reporting Entity**

The Town is a municipal corporation governed by an elected mayor and five-member council. The Town is to be construed to mean both the Town and its inhabitants. The Town operates under the Council-Mayor form of government.

For financial reporting purposes, in conformance with accounting principles generally accepted in the United States of America, the reporting entity includes the Mayor and Town Council and the primary government.

The Easton Utilities Commission (Utility Fund) provides electric, gas, water, wastewater and cable and communications services to all of the citizens of the Town and surrounding communities. The Utility Fund is governed by a commission comprised of appointees by the Mayor and Town Council. Water, wastewater, and cable and communications rates are approved by the Town Council. The electric and gas rates are approved by the Town Council and are regulated by the Maryland Public Service Commission. The legal liability for the general obligation portion of the Utility Fund's debt remains with the Town. Separate financial statements for the Utility Fund may be obtained from The Easton Utilities Commission.

For financial reporting purposes, in conformance with accounting principles generally accepted in the United States of America, the reporting entity includes the Mayor and Town Council, the primary government, its proprietary funds and fiduciary fund.

#### **Government-Wide and Fund Financial Statements**

The Statement of Net Assets and the Statement of Changes in Net Assets report information on all of the non-fiduciary activities of the Town. Eliminations have been made to remove the effect of inter-fund activity from these statements. Governmental activities, which are supported by taxes and intergovernmental activities, are reported separately from business-type activities that are supported by customer service charges.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of the business-type activities of the Town and for each function of the Town's governmental activities. Direct expenses are those specifically associated with a program or function. Program revenues include charges to customers and grants and contributions restricted to the capital or operational requirements of particular programs. Revenues that are not classified as program revenues, such as taxes, are reported as general revenues.

#### TOWN OF EASTON, MARYLAND NOTES TO FINANCIAL STATEMENTS June 30, 2013

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Government-Wide and Fund Financial Statements** (Continued)

Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year of levy. Grants are recognized as revenue when all eligibility requirements are met. For pension trust funds, employee and employer contributions are recognized as revenues in the period in which employee services are performed.

Governmental fund statements are presented using the flow of current financial resources measurement focus and the modified basis of accrual. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collected within 60 days of year-end. Expenditures are recorded when the related liability is incurred as under accrual accounting. Principal and interest on general long-term debt and expenditures for compensated absences are recorded when the payments are due.

Those revenues susceptible to accrual are property taxes, taxes collected by the state and county on behalf of the Town, franchise taxes, special assessments, revenue from other agencies, interest revenue, and charges for services. Fines and forfeitures, licenses, permits, penalties and interest (on property taxes) and other revenues become measurable and available when cash is received by the Town and are recognized as revenue at that time.

The Town reports three major governmental funds: the General Fund, Capital Projects Fund and Infrastructure Development Fund. The General Fund is used to account for all activities of the government not accounted for in some other fund. It accounts for the normal recurring activities of the Town such as police, public works, parks and recreation, and general government, etc. These activities are financed primarily by property taxes, other taxes, service charges, and grants from other governmental units.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds distinguish operating revenues and expenses from non-operating items.

Operating revenues and expenses result from providing services and delivering goods in connection with the fund's principal ongoing operations, such as charges to customers for sales and services and expenses such as salaries, product costs, administrative expenses, and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Town reports one major proprietary fund: the Utility Fund. The Utility Fund accounts for the operations of the electric, water, wastewater and cable and communication services for the Town of Easton.

The Town reports two benefit plans as Benefit Trust Funds, the Town of Easton, Maryland - Defined Benefit Plan (a pension fund) and the Town of Easton, Maryland - Other Post Employment Benefit Plan (an OPEB fund). These fiduciary funds are used to account for assets held on behalf of outside parties under the terms of formal trust agreements.

The effect of inter-fund activity has been eliminated from the government-wide financial statements except for charges between the Utility Fund and the General Fund for direct services. Elimination of these charges would distort the direct costs and program revenues reported for the various services. Amounts reported as program revenues include charges to customers for goods and services, operating grants and contributions and capital grants. Internally dedicated resources are reported as general revenues rather than program revenues. General revenues include all taxes.

The utility rates of the Town are subject to the approval of the Town Council. In addition, the electric and gas departments are under regulation by the Public Service Commission of Maryland. As such, the Town maintains accounting records in accordance with the Uniform System of Accounts by the Federal Energy Regulatory Commission, except where Governmental Accounting Standards Board (GASB) pronouncements specifically exclude their use. Since all of the Commission's departments are either regulated or self-regulated, the Commission is subject to certain requirements of private sector guidance that provides certain costs that would otherwise be charged to expense should be deferred as regulatory assets, based on the expected recovery from customers in future rates. Utility plant assets donated by developers or constructed with grants received from other agencies are recorded as capital assets to the extent that the depreciation of such costs will be included in rates charged by the Commission in future years. However, when it becomes probable that part of the cost of an asset will be disallowed for rate-making purposes and a reasonable estimate of the amount of the disallowance can be made, the estimated amount of the probable disallowance is deducted from the reported cost of the plant and recognized as a loss.

The Town applies all relevant GASB pronouncements. In December, 2010, the GASB issued Statement No. 62, Codification of Accounting and Financial Reporting Guidance contained in Pre-November 30, 1989 Financial Accounting Standards Board (FASB) and American Institute of Certified Public Accountants (AICPA) Pronouncements. GASB No. 62 incorporates into GASB authoritative literature certain accounting and financial reporting guidance previously included in FASB, AICPA and Accounting Principles Board Opinions (APB) issued before November 30, 1989.

In June, 2011, the GASB issued Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. This Statement Provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources and defined the residual of assets and deferred outflows less liabilities and deferred inflows as net position. The Town has implemented the effects of this Statement for the reporting period ending June 30, 2013. The effect of this Statement on the Town was a change in format only to include the concept of net position. The Town had no deferred inflows or outflows, as defined in GASB No. 63, at June 30, 2013.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Accounting Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Cash, Cash Equivalents and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with an original maturity date within three months at the time of purchase. Cash deposits of the Town are made in accordance with the Annotated Code of Maryland (the Code), which requires depositories to give security in the form of collateral as provided for in the Code, for the safekeeping and forthcoming, when required, of these deposits.

Excess funds are permitted to be invested either in bonds or other obligations for the payment of principal and interest, of which the full faith and credit of the United States of America are pledged, obligations of federal government agencies issued pursuant to acts of Congress, or in the local government investment pool created by the State of Maryland (MLGIP).

Cash resources of each of the individual funds, except the pension fund and cash held by fiscal agents or required to be segregated by law or policy, are combined to form a pool of cash and investments to maximize interest earnings. Income from pooled cash and investments is allocated to funds on the basis of their equity in pooled cash.

### **Property Taxes and Receivables**

Property taxes are reported at their estimated collectible value. The following summarizes the property tax calendar:

		Personal and
	Real	Corporate
Assessment roll validated	December 31	January 1
Tax rate ordinance approved	June 30	June 30
Beginning of fiscal year for tax levy	July 1	July 1
Tax bills rendered and due	July 1	State notification
Owner-occupied residential	July 1/Jan. 1	State notification
Property taxes payable:		
Delinquent	Oct. 1, Feb. 1	After 30 days
Terms	90 days	30 days
Delinquent interest/penalty rate (annual)	18%	18%

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Property Taxes and Receivables** (Continued)

Information presented is for "full year" levy. "Half year" levy dates are each six months later, and relate to new construction in the first six months of the calendar year. Property taxes are levied on July 1 and are payable by September 30. Simple interest and penalties totaling 1 ½% accrue per month beginning October 1. All taxes attach as an enforceable lien on the property as of July 1. The property tax rates for real and corporate personal property were \$.52 and \$1.30 per \$100 of assessed value, respectively.

All trade and property tax receivables are shown net of an allowance for uncollectibles. The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. Real property taxes are generally fully collectible.

### **Capital Assets**

Capital assets, including land, plant, equipment and infrastructure such as roads, storm drains, and pipe systems, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of three years. The costs of normal maintenance and repairs that do not add to the value of the asset or extend asset lives are not capitalized.

Expenditures for major assets and improvements in governmental funds are capitalized as projects are constructed or the asset is placed in service. Interest of debt during construction is capitalized. The amount of interest to be capitalized is offset by any interest income earned on invested proceeds over the same period. Exhaustible capital assets of the general fund and proprietary funds are depreciated as an expense against related operations. The corresponding accumulated depreciation is reported in the Statement of Net Assets.

Capital assets of the Utility Fund's regulated gas and electric departments are carried at net cost, whereby capitalized costs are reduced by any amounts received from customers or through governmental grants. Capital assets of other departments and other enterprise funds are carried at gross cost for assets purchased or constructed and at estimated cost for assets contributed by developers. The Utility Fund's policy is to charge all additions to the respective asset account in the year in which the project is completed and to charge the cost of minor repairs and maintenance to operations. As required by the Public Service Commission of Maryland, the cost of major repairs incurred by the gas and electric departments is amortized over a period of five years.

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives of the assets:

	Governmental Activities	Business-Type Activities
Buildings and improvements (including infrastructure)	7 – 50 years	15 – 50 years
Improvements other than buildings	20 – 30 years	10 – 30 years
Machinery and equipment	3 – 15 years	5 – 15 years

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Unbilled Revenue**

Customers of the Utility Fund's electric, gas and cable departments are billed in arrears on one of three monthly cycles. As a result of the cycled, in arrears billing, a portion of June's usage is not yet billed at year end. A provision for revenue is recorded based on the actual billings in July and the days unbilled in each cycle at the end of June. Customers of the Commission's Water and Wastewater Department are billed quarterly. As such, a provision for revenue is recorded representing customer usage during the later part of the year, but not yet billed at year end. This amount is estimated using prior year's actual billing to represent the current period's activity. The balance at June 30, 2013 is \$1,472,955.

### **Unrecovered and Over-recovered Fuel and Gas Costs**

The Utility Fund recognizes the effects of purchased power and gas costs that have not been recovered from customers by way of fuel cost adjustment and purchased gas adjustment revenues. Unrecovered fuel and gas costs represent purchased power and gas costs that have been incurred by the Utility Fund, but which have not yet been billed to customers. Over-recovered fuel and gas costs represent purchased power and gas costs that have been billed to customers, but which have not yet been incurred by the Utility Fund. As of June 30, 2013, the Commission had unrecovered fuel costs of \$687,307 and over-recovered gas costs of \$89,438 which are included in accrued liabilities.

In accordance with the tariff for the Utility Fund's electric department, purchased power costs are recovered by the use of a formula that averages costs over a three-month period. These costs are billed to customers in future periods.

In accordance with the tariff for the Utility Fund's gas department, gas costs are recovered by the use of a calculation that projects costs and unit sales for the billing month.

### Inventory

The Utility Fund's inventory, consisting of natural gas, materials, fuels and supplies, is recorded at the lower of cost or market. It is carried and charged as used in the operations of the fund at average cost. Inventory totaled \$6,030,397 at June 30, 2013.

### **Compensated Absences**

Permanent full-time and permanent part-time employees are granted vacation benefits in varying amounts up to specified maximums depending on tenure with the Town. The estimated current portion of the liability for vested vacation benefits attributable to the Town's governmental funds is recorded as an expenditure and liability in the General Fund funds. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Long-Term Obligations**

In the government-wide financial statements and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental fund financial statements, the face amount of the debt issued is reported as other financing sources.

### **Unearned Revenues**

Customers of the Utility Fund's Cable and Internet Department are billed in advance leaving a portion of June 2013 billings not yet earned at year-end. A provision for unearned revenues was recorded based on the actual billings in June and the days unearned in each cycle at the end of June. The Cable Department also has an arrangement with certain advertising customers for payment in advance of service. These customers' credit balances are also shown as Unearned Revenues. The balance at June 30, 2013 is \$6,000.

### **Net Assets/Fund Equity**

The government-wide and business-type activities fund financial statements utilize a net asset presentation to display equity. Net assets are categorized as net investment in capital assets, restricted and unrestricted.

- Net Investment in capital assets this category groups all capital assets including infrastructure into
  one component of net assets. Accumulated depreciation and the outstanding balances of debt that
  are attributed to the acquisition, construction or improvement of these assets reduce the balance in
  this category.
- Restricted net assets this category presents external restrictions imposed by creditors, grantors, or laws and regulations of other governments.
- Unrestricted net assets this category presents the net assets of the Town, not restricted for any purpose.

### **Governmental Fund Balances**

The Town records its governmental fund balances in accordance with GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions.

### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

### **Governmental Fund Balances (Continued)**

In the governmental fund financial statements, fund balances are classified as follows:

- Non-Spendable Fund Balance Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact. This generally includes long-term receivables and prepaid expenses.
- Restricted Fund Balance amounts that can be spent only for specific purposes because of
  restrictions imposed externally by creditors (such as through debt covenants), grantors, contributors
  or laws or regulations of other governments or imposed by the Town Charter, Town Code or
  enabling legislation.
- Committed Fund Balance Amounts that can be used only for specific purposes determined by a formal action by the Town Council, the Town's highest level of decision-making authority, and can only be changed by a formal action by the Mayor and Town Council, ordinance or resolution.
- Assigned Fund Balance Amounts that are constrained by the Town's intent that they will be used for specific purposes but are neither restricted nor committed. Pursuant to the Town Charter, the Mayor and the Town Council are authorized to assign amounts for specific purposes.
- Unassigned Fund Balance All amounts not included in other spendable classifications.

The Town considers restricted fund balances to be spent for governmental expenditures first when both restricted and unrestricted resources are available. The Town also considers committed fund balances to be spent first when other unrestricted fund balance classifications are available for use.

Stabilization Arrangement - The Town Council adopted a Resolution to establish the Stabilization Arrangement which must total a minimum of two months, and a maximum of four months of the following fiscal year adopted general fund expenditure budget. Requests for appropriations from the Stabilization Arrangement shall occur only after exhausting current year's budgetary flexibility and spending of the current year's appropriated contingencies. The funds can be spent if an event occurs that creates a significant financial difficulty for the Town and are in excess of the current year appropriated contingencies. A qualifying event is considered to be: a) Declaration of a State of Emergency by the Governor of Maryland; b) Unanticipated expenditures as a result of legislative changes from State/Federal governments in the current fiscal year; or c) Acts of nature, which are infrequent in occurrence and unusual in nature. The balance of this arrangement is classified as Committed, as defined above.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental Fund Balances (Continued)

### Stewardship, Compliance, and Accountability

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Mayor submits a proposed operating budget to the Town Council at least forty days before the beginning of the fiscal year. The operating budget includes proposed expenditures, the means of financing them, and the use of federal and/or state grants. Public hearings are held for citizen input.
- 2. Prior to June 30<sup>th</sup>, the budget is passed by vote of the Mayor and Town Council. Formal budgetary integration is employed as a management control device during the year for the general fund. Budgets are adopted according to procedures set by the Mayor and Town Council.
- 3. Monthly statements are provided by the Town Manager and budget review is executed by the Mayor and Town Council periodically. The Town Council legally adopts an annual budget for the General Fund and the Capital Project Fund. The Town has no legally adopted annual budget for the non-major governmental funds or any enterprise funds. However, a budget is used as a management tool for these funds.

Expenditures may not exceed appropriations at the fund level without approval from the Council.

The budget is prepared on a basis consistent with generally accepted accounting principles (GAAP) except that short-term and interfund debt is considered other financing sources for budgetary purposes. The following schedule details the necessary adjustment to convert the results of operations and fund balances at the end of the year on the GAAP basis to budgetary basis:

	 Revenues	Expenses	F	und Balance
GAAP Basis	\$ 17,954,211	\$ 7,855,027	\$	7,101,418
Interfund loan	 3,000,000	 <u> </u>		3,000,000
Budgetary Basis	\$ 20,954,211	\$ 7,855,027	\$	10,101,418

### **Deferred Compensation and Defined Contribution Plans**

### 457 Deferred Compensation Plan

All employees of the Town may participate in the deferred compensation plan organized under the Internal Revenue Code Section 457, and administered by the John Hancock. Under the terms of the plan, participating employees may have a portion of their salaries withheld, subject to limitations imposed by the Internal Revenue Service, and invested in the plan. All taxes are deferred on these contributions and related earnings until the participant terminates from the plan. The Town is in compliance with the Internal Revenue Code Section 457(g) requiring all assets and income of the plan to be held in trust for the exclusive benefit of participants and their beneficiaries.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Deferred Compensation and Defined Contribution Plans (Continued)**

### 457 Deferred Compensation Plan (continued)

Management's involvement with the plan is limited to transferring amounts withheld from payroll to the 457 Plan administrators. Management has little administrative involvement and does not perform the investing function. Accordingly, the fair values of the 457 Plan assets are not reflected in the Town's basic financial statements.

### **Defined Contribution**

The Town has defined contribution plans established to provide benefits to virtually all employees and certain members of management with the exception of sworn officers. Plan provisions and contribution requirements are established and may be amended periodically by the Mayor and Town Council. The Town's contribution to the plan for the year ended June 30, 2013 was \$813,881. The plan administrator is John Hancock.

### **NOTE 2 – DEPOSITS AND INVESTMENTS**

### **Deposits**

At year-end, the carrying amount of the Town's deposits (including cash on hand of \$1,775) was \$22,984,846 and the bank balance was \$26,406,174.

### **Investments**

The Town is a participant of the Maryland Local Government Investment Pool (MLGIP), which provides all local government units of the State a safe investment vehicle for the short-term investment of funds. The MLGIP is established under the Annotated Code of Maryland, under the administrative control of the State Treasurer, has been managed by a single Baltimore-based financial institution, PNC Bank. An MLGIP Advisory Committee of current participants was formed to review, on a quarterly basis, the activities of the Fund and to provide suggestions to enhance the pool. The fair value of the pool is the same as the value of the pooled shares. At June 30, 2013, the Town had \$6,856,362 invested in this Pool.

### **NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)**

Investments held by the Defined Benefit Pension Plan include mutual funds and a guaranteed account held by Prudential Financial. A summary of these investments are as follows:

Guaranteed account	\$ 6,513,213
Variable earnings investments:	
American Century Real Est Inv	1,308,098
CIGNA Open-End Real Estate	633
Core Plus Bond/PIMCO	1,349,906
Dryden S&P 500 Index	2,198,907
International Blend / Artio *	1,768,638
Mid Cap Growth/Goldman Sachs	799,221
Mid Cap Value / Systematic	803,470
QMA Emerging Markets Fund *	676,237
Small Cap Grw/Columbus	1,030,910
Small Cap Value/Kennedy Capital	1,048,893
T. Rowe Price Equity Inc Strategy	2,193,187
T. Rowe Price Growth Stock Strategy	 2,173,044
Total Investments – Defined Benefit Pension Plan	\$ 21,874,357

<sup>\* -</sup> Foreign Investment

Guaranteed account income is recorded based on contractual interest of the investment contract in force during the period. Mutual fund investment income consists of dividends earned and realized and unrealized gains and losses attributable to those mutual funds.

Investments held by the OPEB Plan include mutual funds held by Davenport & Company, LLC. A summary of these investments are as follows:

AMCAP - Class F2	\$ 365,817
Diamond Hill – Large Cap	366,282
Dodge & Cox – International*	134,522
Eaton Vance Global*	299,157
FMI FDS - Large Cap	396,659
Hartford Floating Rate I	298,513
Keely – Small Cap Value	67,298
MFS International*	132,581
Munder SER TR – Mid Cap	167,824
Royce Value	134,236
T. Rowe Price - Emerging Markets*	102,244
Thornburg - International Value*	169,998
Vanguard Short Term Investment Grade	 630,062
Total Investments – OPEB Plan	\$ 3,265,193

<sup>\* -</sup> Foreign Investment

### **NOTE 2 – DEPOSITS AND INVESTMENTS** (CONTINUED)

Mutual fund investment income consists of dividends earned and realized and unrealized gains and losses attributable to those mutual funds.

### **Interest Rate Risk**

Fair value fluctuates with interest rates, and increasing interest rates could cause fair value to decline below original cost. To the extent possible, the Defined Benefit Pension Plan and the OPEB Plan (collectively Plans) and the Town attempt to match investments with anticipated cash flow requirements. The Town's investment policy limits the term of investment maturities. The Town believes the liquidity of the portfolio is adequate to meet cash flows requirements and to preclude the Town from having to sell investments below original cost for that purpose. The investments at June 30, 2013 met the Town's investment policy. The Plans' policy guidelines do not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of June 30, the Plans had the following investments and maturities in its fixed earnings investments and the following mutual funds which include investments in bonds.

	Valuation	Weighted Average Maturity (yrs)
<u>Defined Benefit Pension Plan</u>		
Guaranteed account	\$ 6,513,213	<u>N/A</u>
Core Plus Bond/PIMCO	1,349,906	<u>7.40</u>
Total	\$ 7,763,119	
OPEB Plan		
Hartford Floating Rate I	\$ 298,513	<u>5.25</u>
Vanguard Short Term Investment Grade	630,062	<u>3.20</u>
Total	<u>\$ 928,575</u>	

Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

### **Credit Risk**

Credit risk is the risk that the Plans or the Town will lose money because of the default of the security of the issuer or investment counterparty. The Plans' guaranteed accounts and the mutual funds are unrated.

### **Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of the Plans' or Town's investment in a single issuer. The Plans' investments are managed by several fund managers. The concentrations of investments are determined by the participants' elections to invest in the available investment options as selected by the Board. The individual investments that exceed 5% are identified above.

### **NOTE 2 – DEPOSITS AND INVESTMENTS** (CONTINUED)

### **Foreign Currency Risk**

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Town does not allow for investments with foreign currency. The Plans allow the option of investments in mutual funds of countries outside the U.S. that invest in securities; however, these funds do not require disclosure of the individual assets within the fund. The fair value of these investments was \$3,283,377 as of June 30, 2013. The individual funds are identified above.

### **Town**

Town investment policy permits investments in the following types of investments as authorized by the State of Maryland: direct U.S. obligations, U.S. agency obligations, repurchase agreements, bankers' acceptances, municipal securities, commercial paper, money market mutual funds and the MLGIP. The Town invests in the MLGIP which is under the administration of the State Treasurer. The MLGIP is established under the Annotated Code of Maryland and is rated AAAm by Standard & Poor's, their highest rating for money market mutual funds. The MLGIP seeks to maintain a constant value of \$1.00 per unit. Unit value is computed using the amortized cost method. In addition, the net asset value of the pool, marked to market, is calculated and maintained on a weekly basis to ensure a \$1.00 per unit constant value.

### **Custodial Credit Risk**

### **Deposits**

Custodial credit risk is the risk that, in the event of a financial institution failure, the Town would not be able to recover the value of its deposits or collateral securities that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are (a) uncollateralized, (b) collateralized with securities held by the pledging financial institutions, or (c) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Town's name. The Town does not have a policy for custodial credit risk. However, the deposits of the Town were not exposed to custodial credit risk at June 30, 2013.

### **Investments**

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the Benefit Plan or OPEB Plan (Plans) will not be able to recover all or a portion of the value of its deposits, investments or collateral securities that are in the possession of an outside party. The Plans' and the Town's investment custodial credit risk policy requires all investments to be insured or registered, or for which the securities are held by the Plans or their agent in the respective Plans' name or be invested in MLGIP. At June 30, 2013, the Town's investments were invested in the MLGIP. All investments of the Plans are held on behalf of the Plans by Prudential Financial and Davenport and are therefore not exposed to custodial credit.

### **NOTE 3 – RECEIVABLES**

Receivables as of year-end for the government's major and non-major funds, in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

	Govern Activ	_		Busines Activ			
	General		Other	Utility	Other		Total
Taxes	\$ 459,483	\$	-	\$ -	\$ -	\$	459,483
Accounts	562,979		-	5,329,851	5,134		5,897,964
Due from other governments	534,656		404,331	142,106	-		1,018,093
Interest	-		-	895	-		895
Allowance for uncollectibles	 (376,955)	_		 	 	_	(376,955)

The June 30, 2013 balance of due from other governments is as follows:

Total due from other governments	\$ 1,018,09 <u>3</u>
Talbot County	<u>86,241</u>
Various purposes	37,777
Grant purposes	546,437
Income taxes	\$ 347,638
State of Maryland:	

Governmental funds report deferred revenue in relation to receivables for revenues that are not considered to be available to liquidate liabilities of the current period such as property taxes not collected within 60 days after fiscal year-end. Deferred revenue also includes revenues which are unearned at year-end such as, rental and program advances, franchise fees and similar prepayments received by the Town, grant revenue received prior to the incurrence of qualifying expenditures and governmental fund non-exchange contributions. Deferred revenue reported in the Governmental Fund Balance Sheet for the General Fund at June 30, 2013 is summarized as follows:

	Unava	ailable	Unearned	 Total
Income taxes	\$ 15	54,840	\$ -	\$ 154,840
Miscellaneous		<del>-</del>	11,573	 <u>11,573</u>
Total	\$ 15	5 <u>4,840</u>	\$ 11,573	\$ 166,413

Notes receivable are recorded in the Community Development Block Grant Fund and consist mainly of below market interest rate loans through the Community Legacy Program agreements for the Easton Façade Improvement Program in the remaining principal amount of \$69,490 with a forgivable amount of \$35,000 and a deferred payment of \$31,250 due by December 31, 2013 at zero percent interest. Any amount designated as forgivable shall be forgiven if, at loan maturity the Town determines that the project has been completed in accordance with the terms, conditions and requirements set forth by the respective agreements. If the Town determines the conditions are not met, then the full amounts shall be due and payable at maturity.

### **NOTE 4 – INTER-FUND PAYABLES AND TRANSFERS**

Due to/from other funds at June 30, 2013 was as follows:

		Payal	ble Fund				
Receivable fund:	Ge	eneral Fund	Law E	nforcement	Total		
Utility Debt service	\$ 	3,000,000	\$	- 64,916	\$	3,000,000 64,916	
Total	\$	3,000,000	\$	64,916	\$	3,064,916	

Inter-fund transfer activity for the year ended June 30, 2013 was as follows:

Governmental Funds	1	Transfer In	Transfer Out			
General Fund	\$	-	\$	6,275,604		
Capital Projects		4,775,195		-		
Other Governmental		1,131,842				
		5,907,037		6,275,604		
Other Enterprise Funds		368,567

		Entity-Wid	de Activities			
	Go	vernmental	Bu	siness-Type		
Fund statement transfers	\$	(368,567)	\$	368,567		
Transfer of debt in excess of capital assets		(830,788)	-	830,788		
Transfer in (out)	\$	(1,199,355)	\$	1,199,355		

During the year ended June 30, 2013, the East End Redevelopment enterprise fund was terminated and the remaining assets and liabilities were transferred to the Governmental Activities. The net liabilities in excess of assets was \$830,788. On the fund financial statements of the East End Redevelopment fund this transaction is shown as an other operating revenue titled net gain (loss) on disposal of capital assets.

Transfers are used to (1) move revenues from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, (2) move restricted amounts from borrowings to the debt service fund to establish mandatory reserve account, (3) move revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

### **NOTE 5 – CAPITAL ASSETS (CONTINUED)**

Depreciation expense was charged to functions/programs of the primary government as follows:

### **Governmental activities**

General government	\$ 59,237
Public safety	657,882
Public works	891,006
Recreation and cultural	160,661
Non-departmental	123,074
Total governmental activities	<u>\$ 1,891,860</u>
Business-type activities	
Utility	\$ 6,217,832
Other	185,357

### **NOTE 6 – OPERATING LEASES**

**Total business-type activities** 

### **Avalon Theatre**

The Town (lessor) entered into a five-year operating lease agreement with the Avalon Foundation, Inc. (lessee) for the Avalon Theatre, effective January 1, 2001. The lease is structured with a \$24,000 annual rental fee with the tenant responsible for substantially all routine expenses. Part or all of each monthly installment of rent may be forgiven or subject to rebate by the Town based upon the lessee's use of the premises which primarily benefits the citizens of the Town. As of June 30, 2013, the lease is on a month-to-month basis.

\$ 6,403,189

### **District Court**

The Town (lessor) entered into a ten-year operating lease agreement with the State of Maryland (lessee) for the District Court building effective January 1, 2013 with an option for one five-year extension. The annual rent is \$138,324.

### **NOTE 7 – LONG-TERM LIABILITIES**

### **Capital Leases**

The Town entered into a capital lease agreement as the lessee for office equipment expiring in 2014. The assets and liabilities under these capital leases at inception are recorded at the lower of the present value of the minimum lease payments or the fair value of the asset. The assets are depreciated over the lower of their related lease terms or their estimated productive lives. Depreciation of assets under capital leases is included in depreciation expense and amounted to \$1,890 for the year ending June 30, 2013.

The following is a summary of property held under capital leases:

Office equipment Less: accumulated depreciation	\$ 18,895 7,558
Total	\$ 11,337

The future minimum lease payments are as follows:

Years Ending June 30	
2014	\$ 3,517
Less: amount representing interest	 (70)
Present value of net minimum lease payments	\$ 3,447

Interest rate on the capitalized lease was 4.434%.

### **Bonds**

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. These bonds generally are issued as 20-year serial bonds, except for refunding issues or issues less than \$5 million dollars. All interest is paid semi-annually. General obligation bonds currently outstanding are as follows:

### **NOTE 7 – LONG-TERM LIABILITIES (CONTINUED)**

### **Bonds** (Continued)

Bond Issue	Maturity	Interest Rates	Balance at ine 30, 2013
Public Facilities Bonds 1999	2019	3.75 – 5.25%	\$ 2,520,000
Public Facilities Bonds 2003	2023	2.00 - 5.00%	1,895,000
Public Facilities Bonds 2008	2028	2.00 – 5.00%	 7,515,000
Total general obligation bonds			\$ 11,930,000

Total annual debt service requirements to maturity for general obligation bonds are as follows:

Years Ending	<b>Governmental Activities</b>			<b>Business-ty</b>	ess-type Activities		
June 30	 Principal		Interest	 Principal		Interest	
2014	\$ 740,000	\$	367,111	\$ 645,000	\$	146,313

2024 – 2028	2,340,000		432,338	-		-	
2029	 460,000		12,605	 			
Total	\$ 8,275,000	\$	3,064,382	\$ 3,655,000	\$	496,509	

In fiscal year 2003, the Town defeased the Public Facilities Bonds of 1990, the Public Facilities and Refunding Bonds of 1993 and the Public Facilities Bonds of 1996 by placing the proceeds of the new bonds, General Obligation Public Facilities and Refunding Bonds of 2003, in an irrevocable trust to provide for debt service payments on the old bonds due in years 2014 and later. Accordingly, the trust account assets and liability for the defeased bonds are not included in the Town's financial statements. As of June 30, 2013, there remains \$1,925,000 of outstanding defeased debt.

In fiscal year 2006, the Town defeased a portion of the Utility Fund's share of the General Obligation Public Facilities Refunding Bond of 2003 by placing cash reserve funds in an irrevocable trust to provide for debt service payments on the old bond due in year 2017. Accordingly, the trust account assets and liability for the defeased portion of the bond are not included in the Town's financial statements. As of June 30, 2013, there remains \$645,000 of outstanding defeased debt.

### Government-type Funds

During the fiscal year ended June 30, 2008, the Town borrowed \$323,500 from the United States Department of Agriculture for certain capital projects. The loan has an interest rate of 4.50% and matures March 2048. The loan repayment schedule calls for quarterly principal and interest payments of \$4,379.

### **NOTE 7 – LONG-TERM LIABILITIES (CONTINUED)**

### **Government-type Funds** (Continued)

The annual debt service requirements to maturity are as follows:

For the Years Ending June 30	Principal		Interest		Total	
2014	\$	3,699	\$	13,817	\$	17,516
2015	Y	3,869	Y	13,647	Y	17,516

2044-2048		78,012		9,568		87,580
Total	\$	307,304	\$	305,756	<u>\$</u>	613,060

Additionally, the Town has entered into certain loan agreements with the Department of Housing and Community Development (Department) through the Community Legacy Program agreements for three Projects: The Strategic Acquisition Program, The Easton Façade Improvement Program, and the Upper Store Redevelopment Program. The Façade Improvement Program is for \$69,490 with a forgivable amount of \$35,000 and a deferred payment of \$31,250 due by December 31, 2013 at zero percent interest. The Upper Store Redevelopment Program is for \$48,125 with the same terms and conditions as the Façade Improvement Program. Any amount designated as "forgivable" shall be forgiven if, at loan maturity the Department determines that the project has been completed in accordance with the terms, conditions and requirements set forth by their agreement. If the Department determines the conditions are not met, then the full amounts shall be due and payable at maturity.

During fiscal year 1999, the Town borrowed \$1,672,124 from the Department of Housing and Community Development (DHCD) to construct a low income housing unit known as Asbury Place. The interest payments on this loan are forgiven from year to year by the DHCD as long as the unit meets certain requirements and continues as a low income housing unit. As of June 30, 2013, Asbury Place met those conditions and interest was forgiven. During fiscal year 2013, this loan was transferred out of the business-type activities to governmental activities.

### **Business-type Funds**

During the fiscal year ended June 30, 2005, the Town entered into an agreement with the Department of the Environment of the State of Maryland (MDE) through the Maryland Department of Water Quality Financing Administration (WQFA) to finance ongoing construction of improvements to the Wastewater Treatment Plant through the WQFA's State Revolving Loan Fund (SRLF).

### **NOTE 7 – LONG-TERM LIABILITIES** (CONTINUED)

The MDE makes funds available to local governments at below market rates for certain water quality and drinking water projects. Proceeds of the loans are dispersed to the Town as draws according to approved construction payments. During FY 2013, the Commission completed construction of the facility. The balance of the loan payable at June 30, 2013 is \$16,090,182. The note bears an interest rate of .40% and has a scheduled maturity of February 2027.

The following are the principal and interest maturities of the outstanding loan as of June 30, 2013:

For the Years Ending June 30	Principal		 Interest		Total
2014	\$	882,497	\$ 64,360	\$	946,857

Total	<u>\$1</u>	6,090,182	\$ 520,058	<u>\$ 1</u>	6,610,240

During the fiscal year ended June 30, 2013, an agreement was entered into with MDE's WQFA to finance construction of the full cost of a project to relocate certain wastewater force main facilities through the Water Quality State Revolving Fund. The total amount of the loan available to draw on is \$1,589,000. The balance at June 30, 2013 was \$98,557. The note bears an interest rate of 1.8% and has a scheduled maturity of February 2033. The Commission anticipates the remaining required funds to be drawn down by the end of fiscal year 2014. Upon completion of all draws on the note, the final repayment schedule will be determined. The following are the principal and interest maturities anticipated for the outstanding loan as of June 30, 2013:

For the Years Ending June 30	Principal	Interest	Total
2014	\$ -	\$ 10,977	\$ 10,977
2015	71,843	30,977	102,820

### **NOTE 8 – LINE-OF-CREDIT**

### **Business-type Funds**

The Town, for the benefit of the Easton Utilities Commission, maintains a revolving line-of-credit agreement with a commercial bank for \$5,000,000, which bears interest in the amount of 1.15% above the LIBOR rate (.1932% at June 30, 2013). The purpose of the credit facility is to provide an additional source of financing to meet operating needs, if required. The Town did not draw on this line and there was no balance due at June 30, 2013.

### **NOTE 9 – FUND BALANCE**

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN**

### **Plan Description**

The Town of Easton, Maryland Employee's Pension Plan (Plan) is a single-employer contributory defined benefit pension plan established by Town ordinance. The Plan is governed by the Town of Easton. The Town has delegated the authority to manage plan assets to The Prudential Insurance Company of America's Prudential Retirement Division (Prudential).

### **Plan Membership**

As of July 31, 2012 (the date of the last actuarial valuation), the pension plan's membership consisted of:

Total	<u>396</u>
Terminated employees entitled to benefits but not yet receiving them	90
Retirees and beneficiaries currently receiving benefits	99
Active employees	207

### **NOTE 10 – DEFINED BENEFIT PENSION PLAN (CONTINUED)**

### **Funding Policy**

The Plan covers all full-time employees who began service prior to the age of 55 and prior to the plan being frozen (see below) except for sworn police officers, voluntary contributions from eligible employees are prohibited. Sworn police officers who are employed on a regular full-time basis with less than 25 years of service are required to contribute 5.7% of gross annual earnings. For police officers who are employed on a regular full-time basis with service in excess of 25 years, the required contribution rate is 6.7% of gross annual earnings. Participants' actual contributions during the year ended June 30, 2013 were \$175,410. Administrative costs are financed through investment earnings.

Provisions of the Plan include retirement and death benefits to plan members and their beneficiaries. Cost of living adjustments are provided at the discretion of the Town Council.

Effective July 1, 2008, a "soft freeze" was implemented for the existing Plan. All current participants will remain in the Plan, but future employees will not be eligible to participate. Future service will not be credited; however, future pay increases will be included in computing benefits.

Contributions to the Plan made by the Town are based on an actuarially determined basis. The contribution amounts made by the Town are established by the Town Council. The actuarially required and actual contribution to the Plan during the year ended June 30, 2013 was \$1,241,552 and \$1,241,552, respectively.

### **Valuation of Investments**

The Plan's un-allocated insurance contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to purchase annuities or pay administrative expenses charged by Prudential. Funds under the contract that have been allocated and applied to purchase annuities are excluded from the pension plan's assets. At July 31, 2012, no investment in any one organization, exceeded five percent or more of net assets available for benefits.

### **Actuarial Methods and Assumptions**

The annual required contribution during the year ended June 30, 2013 was determined as part of the July 31, 2012 actuarial valuation using the Projected Unit Credit Actuarial Cost Method. The actuarial assumptions include (a) 7.5% investment rate of return (net of administrative expenses), and (b) projected salary increases of 4.5%. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market of investments over a five-year period. The unfunded actuarial accrued liability is being amortized over a period of 30 years. The remaining amortization period at July 31, 2012 was a weighted average of 15 years.

### NOTE 10 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

### **Annual Pension Cost and Net Pension Obligation**

The Town's annual pension cost and net pension obligation for the current year were as follows:

Annual required contribution Interest on net pension obligation and other adjustment	\$ 1,241,552 
Annual pension cost Less: contributions made	1,241,552 (1,241,552)
Change net pension obligation Net pension obligation, beginning of year Net pension obligation, end of year	- - <u>\$</u> -

### Three year trend information:

 Fiscal Year Ending	Anr 	nual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
June 30, 2013	\$	1,241,552	100.0%	\$ -
June 30, 2012		1,204,597	100.0%	-
June 30, 2011		1,011,277	100.0%	-

### **Fund Status and Funding Progress**

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL)	Ratio of Assets to AAL	Covered Payroll	UAAL as a % of Covered Payroll	
July 31, 2012	\$22,097,446	\$29,466,678	\$7,369,232	75.0%	\$13,947,014	52.84%	

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

### NOTE 10 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

The condensed financial statements as of and for the year ended July 31, 2012 are as follows:

### **Statement of Plan Net Position**

Assets Investments, at fair value other adjustment	<u>\$ 21,874,357</u>
Net Assets  Net assets held in trust for pension benefits	<u>\$ 21,874,357</u>
Statement of Plan Net Position	
Additions  Contributions: Employer Employee Total contributions Investment earnings: Investment income Net increase in fair value of plan investments Less investment expenses Net investment income Total additions	\$ 1,204,597
Deductions  Reposit novements	1 052 190
Net change  Net position at beginning of year	1,053,180 1,021,452 20,852,905
Net position at end of year	<u>\$ 21,874,357</u>

### **NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS**

The Town provides life insurance policies in the face amount of \$2,500 and pays a portion of the cost of major medical insurance for retired employees. The percentage of contribution is based on the number of years of service. All retired employees are eligible, including those on disability retirement. Coverage may include the retiree, spouse and dependents. Coverage does not cease upon death of the retiree.

### **NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)**

### **Funding Policy**

The Town has implemented a cost sharing requirement for the health insurance premiums. For all new retirees (excluding Sworn Police Officers), the Town will pay 90% of the premium at retirement. The Town will continue to pay for 100% for new and existing retirees who were within five years of normal retirement age as of July 1, 2008. The Town will pay for the first 4% of any annual increase of health insurance premiums for retirees. If premiums rise more than 4%, retirees will be required to pay for the additional increases greater than 4%.

### **Annual OPEB Cost and Net OPEB Obligation**

The Town's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution* of the employer (ARC), an amount actuarially determined in accordance with GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The Town's annual required contribution for the years ended June 30, 2013, 2012 and 2011 were \$1,143,226; \$1,143,226, and \$1,029,630, respectively. The Town's actual contributions for the years ended June 30, 2013, 2012 and 2011 were \$1,266,456; \$958,558, and \$1,029,630, respectively.

The following table shows the components of the Town's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Town's net OPEB obligation:

Annual required contribution (ARC)	\$ 1,143,226
Interest on net OPEB obligation	13,535
ARC Adjustment	(15,443)
Net Annual OPEB cost	1,141,318
Contribution made	(1,266,456)
Net Change in Net OPEB Obligation	(125,138)
Net OPEB obligation - beginning of year	408,746
Net OPEB obligation - end of year	<u>\$ 283,608</u>

The net OPEB obligation is included in governmental activities long-term liabilities totaling \$324,136 and business-type activities long-term liabilities totaling a prepaid balance of \$40,528 at June 30, 2013, respectively.

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year ended June 30, was as follows:

### **NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)**

### **Annual OPEB Cost and Net OPEB Obligation** (Continued)

			Percentage of Annua OPEB Cost	ıl	
Fiscal Year Ended	Ann	ual OPEB Cost	Contributed	Net C	PEB Obligation
June 30, 2013	\$	1,141,318	110.96%	\$	283,608
June 30, 2012		1,141,722	83.95%		408,746
June 30, 2011		1,044,172	96.10%		225,582

### **Funded Status and Funding Progress**

Actuarial	Actuarial	Actuarial		Ratio of		UAAL as a %	
Valuation Date	Value of Assets	Accrued Liability (AAL)	Unfunded AAL (UAAL)	Assets to AAL	Covered Payroll	of Covered Payroll	
July 1, 2011	\$1,844,690	\$12,681,234	\$10,836,544	14.6%	\$12,886,240	84.22%	

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2011 actuarial valuation, the Town utilized the projected unit credit actuarial method. The actuarial assumptions included a 7% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 11.0% initially, reduced by decrements to an ultimate rate of 5.0% after five years. The UAAL is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at July 1, 2011, was 30 years.

### NOTE 11 - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

### **Actuarial Methods and Assumptions (Continued)**

Additional information as of the latest actuarial valuation follows:

Valuation Date July 1, 2011

Actuarial Cost Method Projected unit credit method

Amortization Method Level percentage of pay over a 30-year period

Asset Valuation Method Market value

**Actuarial Assumptions:** 

Investment Rate of Return 7.0% annual return

Payroll Growth Rate 4.5%

Healthcare Cost Trend Rates:

Medical 11% initial / 5% ultimate (not applicable to life insurance)

Prescription Drug 11% initial / 5% ultimate

### **NOTE 12 – RELATED PARTY TRANSACTIONS**

The Utility Fund provided various services to the General Fund during the year. All such services were billed to the Town by the utility fund totaling \$417,193.

The outstanding balance of the above services remaining at June 30, 2013 was \$28,393. The General Fund charged the Utility Fund \$9,231 for street repairs and \$1,536,751 for payments in lieu of taxes during the year ended June 30, 2013.

During the year ended June 30, 2013, the Utility Fund loaned \$3,000,000 to the Town. The balance of the loan at June 30, 2013 was \$3,000,000. The note bears an interest rate of 0.9%, requires equal quarterly payments of principal and interest in the amount of \$153,569 and has a scheduled maturity of April 2018. This loan was eliminated as an internal balance on the statement of net position.

### **NOTE 13 – OTHER INFORMATION**

### **Risk Management**

The Town is exposed to various risks of loss related to torts; damage to, and destruction of assets; errors and omissions; employee's health and accident; and natural disasters. The Town purchases commercial insurance to protect its interest in its property and equipment, insurance against employee dishonesty and liability protection. Settled claims have not exceeded these coverage's for the past three fiscal years.

### **Contingent Liabilities and Commitments**

### Grants and Cost-reimbursable Contracts

Most grants and cost-reimbursable contracts specify the types of expenditures for which the grant or contract funds may be used. The expenditures made by the Town under some of these grants and contracts are subject to audit. To date, the Town has not been notified of any significant unallowable costs relating to its grants or contracts. In the opinion of management, adjustments for unallowable costs, if any, resulting from such audits, will not have a material effect on the accompanying financial statements.

### Fuel Cost and Purchased Gas Adjustment Rates

The fuel cost and purchased gas adjustment rates used in connection with gas and electric charges are subjected to review by the Public Service Commission of Maryland (PSC) on a regular basis. As of the date of this report, the purchased power and gas cost adjustment rates in effect through November 2011 have been reviewed and accepted by the PSC. The purchased gas adjustment rates applied subsequent to November 2011 have been authorized by the PSC subject to detailed review.
